We're Grateful For You

All of us at Community Foundation Boulder County are deeply grateful for this community and for your support of the foundation.

Like communities across the world, Boulder County has been through a lot in 2020. Your friends and neighbors contributed footage to help the foundation create the above video showing how we all came together. Please grab a cookie or a cup of coffee and take a moment to watch with us.

May you and yours be well and safe this holiday season,
