Who We Are

As Boulder County’s trusted philanthropic partner for over 30 years Community Foundation Boulder County has granted more than $100M to local nonprofits across a range of funding areas.

The Foundation manages over $90 million in assets and grants approximately $10 million annually through its discretionary and donor advised funds.
Crisis Experience

We have administered 6 crisis funds in addition to the current fund.

Every crisis is different. We have learned from our own experience in the field and the many different models.

Our Purpose & How We Work

We fill gaps in support. We work closely with government and nonprofit partners to coordinate, align resources and fill gaps. Our experience has shown us the importance of deep local relationships in meeting short- and long-term community needs in a crisis with equity, transparency, and integrity.
We are listening.
Our advisory committee members are from the community.

The advisory committee members are:

- **Heather Balser**, former City Manager, City of Louisville
- **Scott Beard**, Trustee, Community Foundation Boulder County; representative of the LGBTQ Chamber of Commerce
- **Rev. Nicole Garcia**, M.A. LPC, faith leader; Board Member, OUT Boulder County
- **Probir Ghosh**, President & CEO, Virtual Source Networks Inc.; Superior resident
- **Carly Hare**, National Director, Change Philanthropy; Board Chair, Impact on Education
- **Stuart Kingsbery**, CPA, J.D., Kingsbery CPAs
- **Jonathan Lev**, Executive Director, Boulder JCC
- **Richard Lopez**, Board President, Calwood
- **Deana Miller**, Executive Director, Superior Chamber of Commerce

• Anyone with a home that was destroyed or damaged
• Anyone who was forced to evacuate
• Those who lost the ability to work (including home businesses) due to the fire
• Residents who lost “tools of the trade” to the fire (excluding computers or computer equipment)
• Anyone with a small local business that was destroyed or damaged (including home businesses)

Insurance Navigation with United Policyholders – uphelp.org
We hear your stories... and we need comprehensive data

- There is not currently a comprehensive census of the affected community.
- This information is critical to thoughtful decision-making.
- We continue to work with local and state entities to coordinate data collection and information.

- At the end of tonight’s presentation, we will ask you to fill out a survey to begin crafting that census.
Disaster Recovery 101

• Disaster support infrastructure does not exist, in any community, and must be stood up after an event like this happens.
• Federal support for that infrastructure can take months to arrive.
• The national model relies on nonprofit organizations to provide case management, mainly for low-income people.

Our Intent

We are working with local partners to create a simple, centralized, and human centered solution to support everyone in our community.
Approved Allocations for Remaining Funds

Rebuild Efforts: $20,000,000
